ISO 9001 KOHLER POWER SYSTEMS NATIONALLY REGISTERED

Block Heater Kit, typical

Applicable Models

- 15/30RES/RESA
- 15/30RYG//REYG
- 38RCL
- 38RCLA
- 48RCL
- 60RCL

Description

The engine block heater kit heats engine coolant, making starting easier and warmup quicker. The thermostat, built into the base of the block heater, automatically turns off the heater when coolant temperature reaches 27–38°C (80–100°F).

Model 38RCL, 38RCLA, 48RCL, and 60RCL generator set engines are equipped with valves that eliminate the need to drain the cooling system before installing the block heater.

- Provides an extra degree of weather protection
- Keeps a generator performing in harsh conditions
